News and Information

Welcome to the first round-up of 2025.

We have started term well, with Key Stage 2 starting swimming lessons, a visit from a fire engine, the cross-country team attending a second event held at Hedingham school and the return of our community coffee afternoons today.

We have been delighted to get stuck into the EPINs project, which is being fully funded by Essex. So far this term, we have carried out a school audit with an expert from their team, had the Autism reality experience in school which was visited by all members of staff and some parents to promote an understanding of the lived experience for people with Autism, taken feedback at parent forums with the team and held a joint workshop for parents and staff about emotional regulation. All of these events have been very well received and there is lots more coming so please keep your eyes open for any dates.

We are delighted to now have our outdoor classroom in place. We have been able to facilitate this through a range of grants, including from FOSMs and from The Halstead and Earls Colne Educational Charity and our thanks go to them for making this possible.

Our thanks also to FOSMs for organising an excellent disco.

Coming up next half month:

February

- 4th: Choir to Young Voices 2025
